

Lakeside Montessori Summer Camp 2025

Session 1
June 16-27
Closed June 19

Age of the Dinosaurs

Step back in time and walk with the dinosaurs! Children will be introduced to a variety of dinosaurs, both carnivores and herbivores. They will learn about the different periods and which dinosaur lived during which period. Our young paleontologists will explore dinosaur tracks and dig up dinosaur bones!

Session 2
June 30-Jul 11
Closed July 4

Cooking for fun

Put on your apron! Through hands on participation, the children will be introduced to commonly used kitchen tools and learn about cooking safety. We will be making fun recipes that we will get to taste too!

Session 3
July 14-25

Scientific Explorers

The children will learn scientific skills as they try various hands on experiments, learning how to observe and communicate the results. We will discuss physical science, learning about states of matter and how solids, liquids and gases can change into each other.

Session 4
July 28-Aug 8

Nature All Around

Children will explore nature all around. They will identify specimens around us through scavenger hunts, magnifying glass exploration, journaling, and nature art projects. Students will learn about botany and zoology and gain a sense of appreciation for our natural world as well as an understanding of the importance of conservation.

Session 5
Aug 11-22

Live in Color

Children will discover art through color, texture, shape, and various mediums and techniques. We will begin by learning the basics of primary and secondary colors, line, dot, and form. Little artists will explore with paint, clay, color mixing, bubble art and more as they uncover various genres and themes in art all around them.
