

Lakeside Montessori Summer Camp 2024

Session 1
June 17-28
Closed June 19

Exploring Outer Space

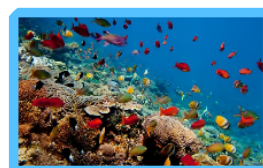

Blast off on an adventure to outer space! The children will be learning about space and doing space-themed experiments. We will be learning about inner and outer planets, the phases of the moon, the Milky Way galaxy and the Sun.

Session 2
July 1-12
Closed July 4

Under the Sea

Our oceans are a natural treasure. Come dive in and learn about the different oceans of our world, the layers of the ocean and what animals live in each layer. We will explore different types of shells and learn about coral reefs too!

Session 3
July 15-26

Mad Science

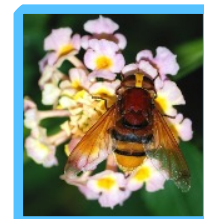

The children will become little scientists as they try various hands on experiments. They will have the opportunity to form a hypothesis of what will happen during the experiment and then see the results!

Session 4
July 29-Aug 9

Nature's Playground

We will be exploring nature around us, learning about trees, leaves, insects and animals. We will learn the difference between vertebrates and invertebrates. We will also discuss why it is important to take care of nature and learn how we can Reduce, Reuse and Recycle.

Session 5
Aug 12-23

Cooking Camp

Put on your chef's hat! We will learn about nutrition and some basic cooking skills, which builds confidence, independence, and healthy eating habits. We will be gaining practical life skills, learning food literacy, and polishing our table manners by sharing meals among friends.
